

<b>Job title</b>	<b>Top Management Position</b>
<b>Workplace</b>	Dübendorf, Switzerland (15 min. from Zürich City)
<b>Who we are</b>	FLISOM is a young and dynamic company in the field of solar energy and next generation thin-film flexible solar modules with exciting opportunities. The company has made remarkable progress in developing the production technologies for potentially low cost and high performance solar modules. The company is now entering the next phase of pilot production and further expansion to larger production volume. FLISOM offers attractive conditions in a strongly developing market
<b>Who we are looking for</b>	<p>FLISOM offers a <b>top management position to lead solar module production ramp-up and industrial growth.</b></p> <p>You will provide leadership to the technology development and production teams and play a key role in the company's growth in an internationally competitive field. You are therefore technically qualified (science or engineering background) and highly experienced with an excellent track record to take up the production ramp-up challenges for high growth opportunities in a global business market.</p> <p>You have several years of work experience in the high-tech industry, preferably in a photovoltaics and/or thin-film coating company. You have led a team of scientists and engineers for technology development and/or production, have experience of management in a mid-sized company, ideally a successful start-up or ramp-up transition to large production.</p>
<b>Responsibilities</b>	<ul style="list-style-type: none"><li>• Lead technical team with active participation on floor activities</li><li>• Coordinate pilot-scale manufacturing of solar modules and further production ramp-up;</li><li>• Deal with equipment and materials suppliers on technical and purchase matters;</li><li>• Implement international scale-up and manufacturing operations;</li><li>• Plan business development and market strategies and assist in implementation;</li><li>• Coordinate marketing and human resource issues.</li></ul>
<b>Desired experience</b>	<p>Experience in management of manufacturing infrastructure development and operations of utilities. Experience in setting-up manufacturing equipment and processes. Ability to deal with international companies for cooperation and business development.</p> <p>Administrative experience in human resource management and financials. Experience in sales and marketing of machines and solar modules. Experience in setting-up manufacturing plants for customers and technology transfer.</p>
<b>Entrance upon</b>	On mutual agreement
<b>Contact</b>	<p>Please mail your application to Ms. Alice Schmidli, secretary of the Board: <a href="mailto:alice.schmidli@flisom.ch">alice.schmidli@flisom.ch</a></p> <p>Applications will be handled with strict confidentiality.</p>
